The star (*) preceding the page number indicates an original article. No author entries are made except for original articles and society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

	PAGE
Abdomen, lacerations of abdominal organs by blunt force.....	1011
Abortion, death from hemorrhage as a sequel of miscarriage.....	729
gangrene of legs following.....	729
human infection with bacillus abortus....	141
melitensis and abortus infection in United States	989
pathogenic powers of B. melitensis and B. abortus for man and monkey.....	995
strain of bacillus abortus from swine....	532
Abscesses, multiple, pulmonary, from blood infection with proteus group.....	850
perinephritic	840
pulmonary, of ten years' duration.....	841
Acacia "soluble specific substance" derived from gum arabic.....	858
Acid, acetoacetic, utilization of, by normal and diabetic dogs before and after evisceration	126
and alkaline feedings producing amyloid in mice.....	515
Acidosis, outlying, due to functional ischemia	320
Acrodynia, juvenile.....	319
Acromegaly, and lipemia with diabetes mellitus	512
Actinomycosis, occupational.....	1014
Adamantinoma, pituitary.....	696
Addison's Disease in negro.....	129
pathologic anatomy in 28 cases of.....	*432
pathology of suprarenal glands in relation to.....	328
Adenocarcinoma, metastasis of, to choroid..	1006
of parotid gland with general metastasis causing syndrome of spinal cord tumor.	694
of testicles in adult.....	693
Adenoma, diffuse intestine-like, of renal pelvis	848
of kidney.....	325
of lung, congenital, and hydrops universalis	1004
ovarian	154
progressive multicentric cystic-papillary adenomatosis of pancreas.....	987
Adhesions, amniotic.....	327
Adrenals: See Suprarenals	
Agglutinin, distribution in liver and leg....	144
isohemagglutination in mothers and newborn children.....	348
isolation of group specific agglutinogens of human erythrocytes.....	348
non-specific, in tuberculosis.....	536
Air, rarefied, effect of, on number of erythrocytes and hemoglobin content of normal and splenectomized animals.....	839
Altken, L.: Late gross lesions in aorta and pulmonary artery following rheumatic fever	*451
Alcaligenes appendicis in blood in gangrenous appendicitis.....	991
Alcohol intoxication, experimental studies of	544
Alimentary Tract: See Digestive Tract	
Alkali, and acid, effect of feedings of, producing amyloid in mice.....	515
Allergy: See Anaphylaxis and Allergy	
Aluminum, effect of, on mammalian blood and tissues.....	*230
Alzheimer's Disease: See Insanity, presenile	
Ammonia, urinary, origin of.....	988
Amnion, amniotic adhesions.....	327
Amyloidosis, effect of acid and alkaline feedings producing amyloid in mice....	515
experimental	690
renal insufficiency in amyloid disease....	*762
reticular tissue in amyloid degeneration..	513
Anadontia and anhidrosis, inheritable.....	978
Anaphylaxis and Allergy; anaphylaxis.....	873
allergy, immunity and other factors of importance in pathogenesis of human tuberculosis	907
allergy of tuberculous rabbit after superinfection of mesentery, conjunctiva and cutis	344
anaphylaxis by formation of serum-isoantibodies after repeated transfusion of paternal blood (identical group).....	539
blood calcium distribution in anaphylaxis.	857
blood volume in guinea-pig during anaphylactic shock.....	535
crossed relationship between horse dander and horse serum.....	*635
experiments with globin.....	536
histamine in relation to cutaneous hypersensitiveness	343
hyperglycemia in anaphylactic shock in dog	537
hypersensitiveness to diphtheria bacilli... 342	
hypersensitiveness to diphtheria bacilli and ragweed pollen.....	343
respiratory anaphylaxis, transmission of, from mother to offspring.....	858
skin reaction of sensitized guinea-pig....	1000
skin reactions in rabbits immunized intravenously with non-hemolytic streptococci	858
studies with extracts of hydatid scolices..	1000
Anderson, S. D.: Acute yellow atrophy of liver following administration of oxyiodide	165
Anemia, estimation of hemoglobin by cell concentration; suggestions for reclassification of.....	*484
histologic changes in spleen in early congenital syphilis; with special reference to origin of anemia in this disease....	*224
osteosclerotic, with reticulo-endothelial proliferation	843
pernicious, relation of sprue to.....	505
pernicious, structural changes of liver in; contrast between relapse and remission	*213
correction to above article.....	836
progressive, following single intramarrow injections of B. welchii toxins.....	319

hyperthyroidism and hyperthyroid-like states, oxygen consumption during muscular work in	507	relation of injury to secondary thyroid gland carcinoma of right femur	1014
in hyperthyroidism	*954	Trichinosis, cerebral changes in	521
influence of sodium phosphate and calcium salts on efficiency of thyroid substances	979	changes in skeletal musculature in	516
iodine contents of normal and pathologic glands	980	Tricuspid Valve, rare malformation of ..	516
lympho-epithelial tumor of	517	Tubercle Bacilli, allergy of tuberculous rabbit after superinfection of mesentery, conjunctiva and cutis	344
morphology of experimental hyperthyroidism produced by systemic feeding with substance of	709	and iridocyclitis	856
nonspecific granuloma of	1017	avian, pathogenicity of	138
occurrence of true mixed carcinomatous and sarcomatous tumors (sarcomatous carcinoma) with report of mixed chondro-sarcoma of, in dog	180	cytology and microchemistry of mycobacterium tuberculosis	992
of cretin, pathologic anatomy of malignant goiter and of	523	demonstration of, in small children with pulmonary tuberculosis	988
of guinea-pig, effect of underfeeding and of potassium iodide on	511	demonstration of, in sputum with dark field method	353
reactions to infections elsewhere in body	696	effect of fat-splitting enzyme of guinea-pig lung on	535
relation of injury to a secondary thyroid gland carcinoma of right femur	1014	experiments on production of tubercles and tuberculous structures in skin of healthy pigs following injection of lipoids	723
Thyroiditis, chronic ligneous (nonspecific granuloma of thyroid)	1017	filtrability of granular phase of	851
Tissues, appearance of doubly refracting substance in formalin-fixed rabbit's ..	131	filtrable elements of	990
connective, from lymphocyte and monocyte to	700	in hen's eggs	723
culture, contribution to pathology	873	living, in a septic tank effluent	722
culture, mammalian lymph in; from lymphocyte to fibroblast	701	resistance of skin against	535
cultures, conditions of growth of	704	Tuberculin allergy and immunity in tuberculosis	1002
effect of aluminum on mammalian blood and	*230	avian, human and bovine, reactions in children	724
explantations of human tissues and tumors	1005	fractions prepared from nonprotein culture media; clinical study of	536
		negative tests, in erythema nodosum	536
		old, glandular reactions following injections of, in tuberculosis in guinea-pig ..	345
		Tuberculosis, allergic reaction in	873
		allergy, immunity and other factors of importance in pathogenesis of	997
